Procedures for single account performing identity verification with email,  
joint account, and juristic account\*

\*Juristic account will come into effect from 27 September 2021 onwards.

1. Install the “Google Authenticator” app on your mobile phone. You can scan the below QR code, which is available on both IOS and Android systems.

2. Login with the username-password you have assigned at registration step

**LOGIN**

If you have already registered the username via @ccess online or @ccess mobile,  
please login with your username and password

Username  \*

Password  \*

Remember username on this computer

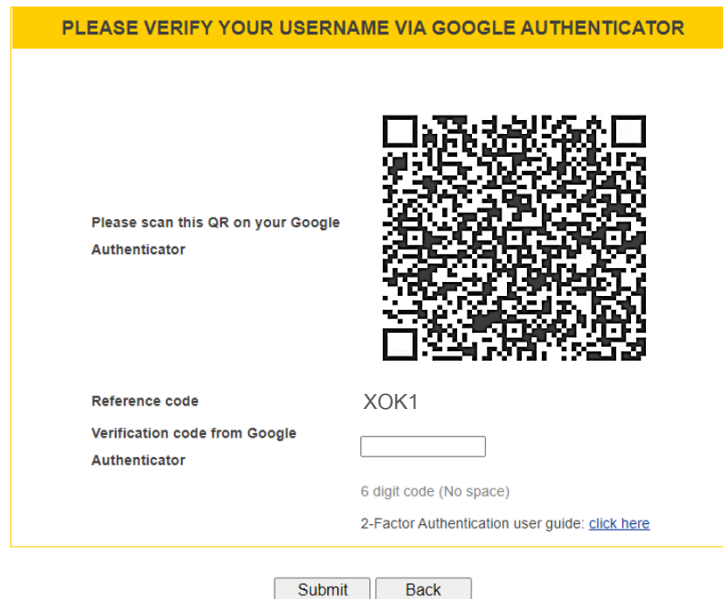

[Register](#)   [Forgot Password](#)

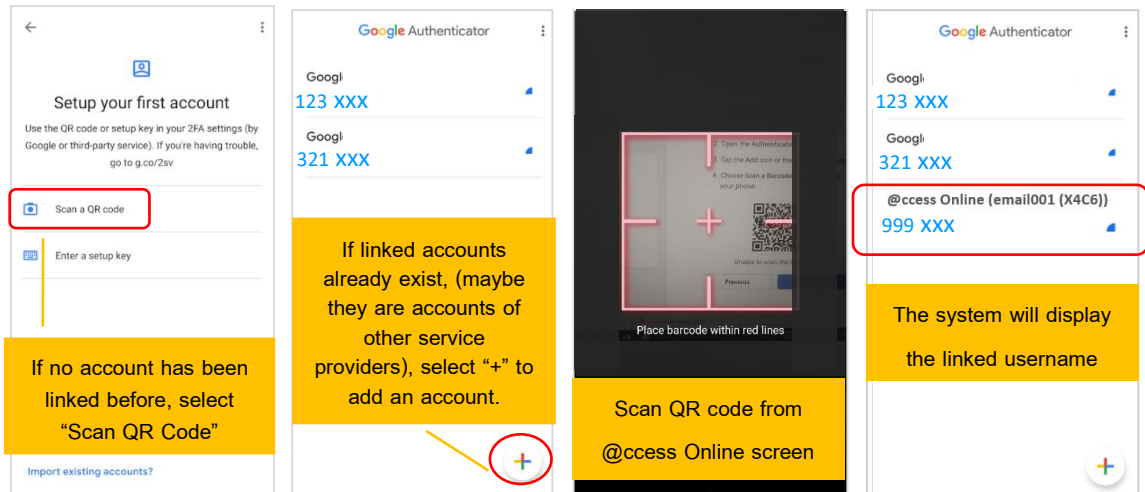

3. The system will check whether your username has already generated a QR code to link with Google Authenticator.

- 3.1 If your username has never linked with Google Authenticator:

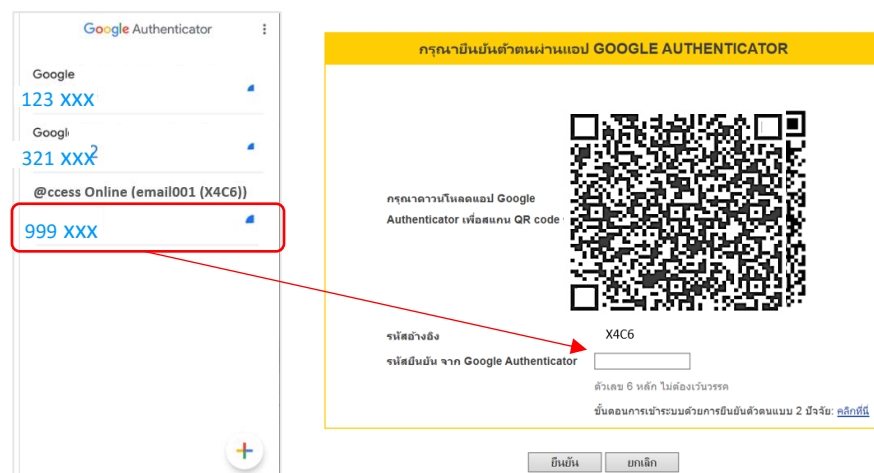

- 3.1.1 The system will display QR Code on the screen of @ccess Online (The QR code is the specific information of each customer, please keep it confidential and do not share it with others. You can save the image of the QR code as a backup in case you lose your phone or in case you want to link it with other devices.)

3.1.2 Open the “Google Authenticator” app to scan the QR code.

3.1.3 Enter the 6-digit-code you have got from Google Authenticator on the screen of @ccess Online (The 6-digit codes will change every 20 seconds, once the current code is expired, the newly generated code must be entered.)

3.1.4 The log-in process is completed. You can start using the service immediately.
